

PRESS RELEASE

Technical Challenge with Voter Verification Through *720#

The Malawi Electoral Commission would like to advise that the *720# facility is not yet operational for registered voters to verify their details due to some technical issues.

The Commission is working tirelessly with the service providers to resolve the issues and have the system up and running as soon as practically possible.

Stakeholders are also advised that once the system starts it will remain active up to the polling day.

All registered voters who may notice an irregularity with their registration details are advised to report at the centre where they registered before 11 June, 2020 or send an email to complaints@mec.org.mw.

The Commission sincerely apologises to registered voters for any inconvenience caused by this delay.

Dated this 10th day of June, 2020 at Blantyre

Sam Alfandika

Chief Elections Officer
